The Control Of Substances Hazardous to Health regulations 2002

# mirius™

global hygiene solutions

global hygiene solutions

Under current Coshh Regulations, everybody at work should know the appropriate safety precautions to undertake so as not to put themselves or others in danger by exposure to substances that are hazardous to health and the environment.

This image is a composite of 10 hazard communication cards, each featuring a large hazard symbol in the top left corner and detailed safety information in the main body. The cards cover different hazard classes: HARMFUL, IRRITANT, TOXIC/VERY TOXIC, CORROSIVE, SERIOUS HEALTH HAZARD, HIGHLY FLAMMABLE, EXTREMELY FLAMMABLE, HAZARDOUS TO THE ENVIRONMENT, and NIEBIEZCZNY DLA ŚRODOWISKA (Hazardous to the Environment). Each card includes a hazard statement, a list of safety precautions, and a detailed description of the hazard and its effects in the right-hand column. The right-hand column also contains a green circular icon representing a specific hazard category and a section titled 'Safety Precautions' with specific measures for handling and storage.
