The 1st
Cleaning Products
Manufacturer To Offer
100% recycled
Trigger Spray Bottles

Welcome to the future of clean

We are the **1st UK cleaning products manufacturer** to offer all of our trigger spray products in **100% recycled bottles**. Made entirely from post-consumer recycled plastic - **rPET**, the new bottle is made from **100% recycled** material and is **100% recyclable**.

Many retailers and professional service providers are working towards the year 2025 for **sustainable, recyclable products and packaging** - we are delighted to be able to **help** towards this **now**.

Plastics are fundamental to our everyday life and **shouldn't be treated as waste**. We **encourage everyone to address their responsibilities** to help **reduce environmental impact**. This significant step forward in recycled packaging is part of our long-term commitment to **reduce plastic waste**.

The new recycled trigger bottle is available for **own label** customers and across our **off-the-shelf** cleaning range - **Super Professional**

Talk to us today -
The future is in your hands....

The new recycled trigger bottle is available for own label customers...

Your Brand Here

...and is also available across our **Super Professional** cleaning range.
