BIODEGRADABILITY:

All surfactants used in Hycolin Professional products comply with the current European regulations concerning biodegradability & protection of the environment.

Antiviral Disinfectant Surface Wipes

Disinfectant surface wipes are ideal for most hard surfaces. Proven to kill 99.9% of germs and viruses, including Coronaviruses*.

Directions for use: Peel back resealable label on front of the pack. Carefully reseal pack after use to prevent wipes from drying out. Remove any loose soiling first. Wipe surfaces to be cleaned thoroughly. Allow surface to dry before reuse.

Caution: Use biocides safely. Always read label before use. Do not use with other cleaning agents. Do not flush wipes down the toilet. Always test on an inconspicuous area first.

Keep out of reach of children. Wash hands thoroughly after handling. If medical advice is needed, have product container or label at hand. Dispose of contents/container to local authority guidelines.

Contains: * <5% Cationic surfactants, Non-ionic surfactants, Disinfectants, Didecylmethylammonium Chloride (DDAC) (0.5g/100g)*
